

DEC 23 1985

THE PROVINCE OF ALBERTAHYDRO AND ELECTRIC ENERGY ACTENERGY RESOURCES CONSERVATION BOARD

IN THE MATTER of a permit and
licence to Alberta Power
Limited authorizing the
construction and operation of a
transmission line in the Carmon
area

PERMIT AND LICENCE NO. AP 85-50

WHEREAS Alberta Power Limited, by Application
No. 850918 registered on 3 September 1985, applied to the
Energy Resources Conservation Board for a permit and licence
to construct and operate a transmission line designated as
AP 7L08 in the Carmon area; and

WHEREAS the Board is prepared to grant the
application subject to the conditions herein contained and
the Minister of the Environment, and the Associate Minister
of Public Lands and Wildlife, each has given his approval,
hereto attached, insofar as the application affects matters
of the environment.

THEREFORE, the Energy Resources Conservation Board,
pursuant to the Hydro and Electric Energy Act, being chapter
H-13 of the Revised Statutes of Alberta, 1980, hereby grants
to Alberta Power Limited (hereinafter called "the Operator")
a PERMIT to construct and a LICENCE to operate a transmission
line, subject to the provisions of the Act and regulations
and orders pursuant thereto, and to the following terms and
conditions:

1. The route of the transmission line designated as
AP 7L08 shall be as shown on the attachment hereto, marked
Appendix A to this permit and licence, and as more
particularly described in an application to the Board from
the Operator, registered on 3 September 1985.

2. Notwithstanding clause 1 hereof, where the route of
the transmission line is prescribed to traverse any parcel of
land of common ownership, the Board, if it considers it

appropriate and reasonable to do so, may by stipulation, vary the prescribed location and route of the transmission line within the boundaries of such parcel of land.

3. Specifications of the transmission line shall be and include as follows:

- (a) the line shall be designed, built for and operated at a nominal voltage of 144 kV,
- (b) the structures shall be of wood, steel or concrete construction,

and as more particularly described in an application to the Board from the Operator, registered on 3 September 1985.

4. The Operator shall satisfy the Board within 30 days of the completion of the construction that such construction has been in accordance with the provisions of this permit and licence and the Electrical Protection Act and regulations and orders pursuant to that Act.

5. The Operator shall, within 30 days of the time that the transmission line is first energized, notify the Board that the transmission line has been energized and is operating within the specified voltage range.

6. Insofar as it pertains to matters of the environment, this permit and licence is subject to the approval of the Minister of the Environment, hereto attached as Appendix B, and to the terms and conditions therein contained.

7. Insofar as it pertains to matters of the environment, this permit and licence is subject to the approval of the Associate Minister of Public Lands and Wildlife, hereto attached as Appendix C, and to the terms and conditions therein contained.

8. (1) Subject to subclause (2), the Operator shall satisfy the Board within 1 year of the date hereof that construction of the transmission line as permitted herein has been completed.

(2) On its own motion, or upon the application of an interested party, the Board may stipulate such later date for completing the construction of the transmission line as it considers suitable under the circumstances.

9. The Board may

- (a) cancel or suspend this permit and licence, in whole or in part, for failure of the Operator to comply with any provision of the Act, the regulations or the terms and conditions set out herein, or
- (b) amend this permit and licence as it deems suitable in the circumstances.

MADE at the City of Calgary, in the Province of Alberta, this 16th day of December, 1985.

ENERGY RESOURCES CONSERVATION BOARD

IN THE MATTER of a permit and
licence to Alberta Power
Limited authorizing the
alteration and operation of a
transmission line in the
Lubicon-West Peace River area

PERMIT AND LICENCE NO. AP 85-51

WHEREAS Alberta Power Limited, at the time of commencement of the Hydro and Electric Energy Act, was operating a transmission line designated as AP 7L12; and

WHEREAS Alberta Power Limited, pursuant to section 40 of the Hydro and Electric Energy Act, is deemed to be the holder of a subsisting permit and licence for the said transmission line; and

WHEREAS Alberta Power Limited, by Application No. 850918 registered on 3 September 1985, applied to the Energy Resources Conservation Board for a permit to alter the said transmission line by tapping transmission line AP 7L08 into it; and

WHEREAS the Board considers it proper and desirable that a permit and licence be issued in substitution for that deemed to be held by Alberta Power Limited; and

WHEREAS the Board is prepared to grant the application subject to the conditions herein contained and the Minister of the Environment, and the Associate Minister of Public Lands and Wildlife, each has given his approval, hereto attached, insofar as the application affects matters of the environment.

THEREFORE, the Energy Resources Conservation Board, pursuant to the Hydro and Electric Energy Act, being chapter H-13 of the Revised Statutes of Alberta, 1980, hereby grants to Alberta Power Limited (hereinafter called "the Operator") a PERMIT to alter and a LICENCE to operate a transmission line in substitution for that deemed to be held, subject to

the provisions of the Act and regulations and orders made pursuant thereto, and to the following terms and conditions:

1. The route of the transmission line designated as AP 7L12 shall be as shown on the attachment hereto, marked Appendix A to this permit and licence, and as more particularly described in an application to the Board from the Operator, registered on 3 September 1985.

2. Notwithstanding clause 1 hereof, where the route of the transmission line is prescribed to traverse any parcel or land of common ownership, the Board, if it considers it appropriate and reasonable to do so, may by stipulation, vary the prescribed location and route of the transmission line within the boundaries of such parcel of land.

3. Specifications of the transmission line shall be and include as follows:

- (a) the line shall be designed, built for and operated at a nominal voltage of 144 kV,
- (b) the structures shall be of wood, steel or concrete construction,

and as more particularly described in an application to the Board from the Operator, registered on 3 September 1985.

4. The Operator shall satisfy the Board within 30 days of the completion of the alteration that such alteration has been in accordance with the provisions of this permit and licence and the Electrical Protection Act and regulations and orders pursuant to that Act.

5. The Operator shall, within 30 days of the time that the altered transmission line is first energized, notify the Board that the altered transmission line has been energized and is operating within the specified voltage range.

6. Insofar as it pertains to matters of the environment, this permit and licence is subject to the approval of the Minister of the Environment, hereto attached as Appendix B, and to the terms and conditions therein contained.

7. Insofar as it pertains to matters of the environment, this permit and licence is subject to the approval of the Associate Minister of Public Lands and Wildlife, hereto attached as Appendix C, and to the terms and conditions therein contained.

8. (1) Subject to subclause (2), the Operator shall satisfy the Board within 1 year of the date hereof that alteration of the transmission line as permitted herein has been completed.

(2) On its own motion, or upon the application of an interested party, the Board may stipulate such later date for completing the alteration of the transmission line as it considers suitable under the circumstances.

9. The Board may

- (a) cancel or suspend this permit and licence, in whole or in part, for failure of the Operator to comply with any provision of the Act, the regulations or the terms and conditions set out herein, or
- (b) amend this permit and licence as it deems suitable in the circumstances.
